PROFESSIONAL EXPERIENCE

Wolaita Zone Science and Information Technology Department | Jan,2024–Apr,2024

Internship

- I gained valuable hands-on experience in the public IT sector. My role involved supporting systems maintenance and providing user assistance across various governmental offices. I worked closely with technical teams to upgrade local digital infrastructures and contributed to documentation efforts for IT workflows.
- Additionally, I participated in a project aimed at assessing digital service delivery gaps and proposing technology-driven improvements. This internship helped me develop both my technical troubleshooting skills and my ability to collaborate within institutional structures.

Final year Project at Haramaya University

a Web-Based Face Recognition Attendance System

- I led the development of a project. The system utilized Python, Flask, and OpenCV to accurately recognize employee faces for attendance marking. I enhanced its security through GPS verification and liveness detection and built an admin dashboard for monitoring attendance records, generating reports, and linking with payroll functions.
- The project emphasized my ability to manage full-stack development while solving real-world administrative challenges through intelligent automation.

EDUCATION

Haramaya University | 2021–2025

Bachelor of Science in Information system

- GPA: 3.27
- National Exit exam : 73

SKILLS

- Project management
- Team collaboration
- Data analysis

- * Web development
- * Python programming
- * Problem Resolution

- I bring with me a strong sense of accountability, a hunger to keep learning, and a mindset that values ethical responsibility and impact. Recognized for my efforts in entrepreneurship, community service, and leadership roles in language and communication activities, I believe in the power of technology and people working together to create lasting value. Proficient in three languages, I possess fluency in English, Amharic, and Wolaitigna.

CERTIFICATES

English Executive Award | 2025

performance and leadership in English-language activities and clubs.

Charity Award | 2025
